JOB INTERVIEW

Question 1: Introduce yourself.

Hello, my name is Mohamed Zaatouti For 5 years, I worked as a salesperson in 2 different companies, and for the next 3 years I started a family project with my wife (a nursery school), then this year it was decided that she manage the company by itself, so I decided to embark on a new career perspective that had interested me for a long time "web development". And here I introduce myself to you in the hope of initiating a first experience with my new skills that I developed during my training with GoMyCode.

Question 2: Name three reasons that you should be recruited instead of another candidate.

I am a very active and dynamic person
I always want to learn new skills
I developed my communication skills during my training cycle and my professional career as a commercial

Question 3: **Are you responsible?**

I was in charge of different projects along my past career and I have finished my missions successfully.

Question 4: Tell me about your academic training.

I got my masters in management from the "Ecole Superieure de Commerce ESC" a professional master's degree in technology management.

Question 5: Name three of your flaws

- Inexperience in the web development.
- Tendency to take on too much responsibility.
- I can have trouble asking for help.
